

Stockholm, 21st March 2025

To whom it may concern,

I am glad to give my strong recommendation for Mr. Labau.

I know Alexandre Labau from the Mechanical Engineering program at KTH Royal Institute of Technology, and in particular through my own course Human Spaceflight that he just finished with good result. During the extensive project work, I have noted Alexandre's engagement and very good performance.

I am fully convinced that Alexandre will be a great asset in any space-related work environment and contribute in general to a positive environment.

Sincerely,

Professor Christer Fuglesang, former ESA Astronaut
Director KTH Space Center
KTH Royal Institute of Technology
